DECIS Capability Statement

Built secure. Stays compliant.

Durable Enclaves for Compliance, Infrastructure, & Sovereignty

Core Focus: Universal Compliance Synthesis & Driftless Cloud Infrastructure

Company Overview

DECIS is a **service-disabled veteran-owned**, woman co-founded technology firm specializing in the declarative synthesis of complex compliance frameworks into highly resilient, immutable cloud environments. We bridge the gap between overlapping regulatory mandates and small-to-medium business operations. No matter the complexity of the regulatory landscape—spanning **CMMC, HIPAA, FCI, Financial, GDPR, SOC, ISO, and NIST**—our automation-driven Infrastructure-as-Code (IaC) blueprints deliver turnkey, drift-less environments that keep data sovereign and environments audit-ready.

Core Competencies

Capability Area	Description
Multi-Framework Compliance Synthesis	Mapping intersecting international and federal controls (NIST, ISO, SOC, GDPR, HIPAA) into a singular, unified cloud architecture.
Immutable & Drift-Less Infrastructure	Deploying declarative, self-healing environments via automated IaC templates that continuously detect drift and automatically restore the approved baseline.
High-Availability Automated Failover	Engineering secure cloud-to-cloud disaster recovery and failover designs that support zero-trust business continuity under strict regulatory oversight.
Sovereign Environment Hardening	Provisioning logically and programmatically isolated workloads within Microsoft Azure Government (GCC High) and AWS GovCloud boundaries.

Differentiators

- **Veteran-Owned, Co-Founder Led:** 100% owned and controlled by a service-disabled veteran and built to SBA SDVOSB requirements, with a woman co-founder serving as COO, combining military-grade technical execution with agile executive operations.
- **Universal Compliance Portability:** Architectural blueprints designed to scale fluidly from basic FCI protocols up to hyper-complex CUI defense requirements.
- **Compliance-First Internal Operations:** We hold our own infrastructure to the same NIST SP 800-171 / CMMC controls we implement for clients.

Corporate Data

- **Ownership Structure:** 100% owned by a service-disabled veteran; woman co-founded
- **SBA VetCert SDVOSB Certification:** Pending | **SPRS:** Pending Assessment
- **Geographic Coverage:** National Capability / Local Physical Footprint in Florida
- **Primary NAICS Code:** 541512 (Computer Systems Design Services)
- **Additional NAICS Codes:** 541513, 541511, 541519, 541611
- **UEI:** Pending Registration | **CAGE Code:** Pending Registration | **JCP Certification / DD2345:** Pending Registration
